KEY EVENTS DURING THE PERIOD

Key events during the period

- In June, Anna Romboli was appointed ATG's new CEO by the Board of Directors. Anna Romboli joins ATG from her most recent role as SVP Business Unit Director for Svenska Spel Tur. ATG's previous CEO, Hans Lord Skarplöth stepped down on 12 February. In conjunction therewith, Chairman of the Board Peter Norman was appointed temporary acting CEO. On 5 March, Jörgen Forsberg, CEO of the Swedish Trotting Association, was appointed as the new acting CEO for the period until Anna Romboli takes office. Lotta Nilsson was appointed Deputy CEO on 12 February.

- Two reorganisations were implemented during the year to streamline operations and led to a number of roles becoming redundant and consequent employee lay-offs due to a shortage of work. The new organisation takes effect on 1 October. Costs related to the autumn reorganisation will arise in the fourth quarter.

- A subcontractor has exposed ATG to a data breach, whereby personal data has been made available to unauthorised parties. The incident is being investigated and has been reported to the relevant authorities.

- On 7 May, ATG held its Annual General Meeting, at which Richard Woodbridge was elected as a new Board member and the other six members were re-elected. The Board comprises seven members, four of whom, including the Chairman, are independent. The remaining three represent the company's owners: two from the Swedish Trotting Association and one from the Swedish Jockey Club. In addition, the Board includes two employee representatives together with two deputies. Read more about ATG's Board on omatg.se

- In September, the Board resolved to reintroduce V75® on 28 November as ATG's main Saturday event. This will be an updated version of the betting product – with SEK 0.60 per betting combination and the option to bet only on the seven-correct-winners pool, meaning picking winners in the seven races (V7), in betting rounds without a jackpot.

Key events after the closing date

- ATG has appointed two new department heads: Jesper Komstadius has been named Chief Product Officer, and Thérése Haeggblom Widmark has been named Chief Information Officer.

- On 19 October, ATG's subsidiary Hippos ATG OY was granted a gambling licence in Finland. The market is being re-regulated, and Hippos ATG OY will begin accepting bets on 1 July 2027.

WE ARE DEVELOPING HORSE BETTING AND ENTERING THE FINNISH MARKET

ATG continues to report a strong operating margin despite lower net gambling revenue. Developments differ between our betting areas.

For the January–September period, the Group's net gambling revenue fell 3 per cent year-on-year, and operating profit decreased 2 per cent. Casino operations grew, while net gambling revenue from horse and sport betting declined. For the first nine months of the year, net gambling revenue was MSEK 3,763 and operating profit MSEK 1,079.

Horse betting and the future of horse racing

ATG's horse betting has several significant strengths to build on: genuine excitement, knowledge that makes a difference and the chance of major winnings. Our task is to enhance what makes horse betting unique, reach more customers and renew the offering so that it meets the expectations of new and existing customers. This is not about changing the core of horse betting, but rather to develop and clarify its qualities for the next generation of players.

In the third quarter, we announced the return of V75 in the final quarter of the year, and we will be monitoring closely how customers respond.

The future of horse racing, however, is about more than just betting. The potential to own and breed horses is impacted by the cost of horse husbandry and training, and we are witnessing declining numbers at all levels. This is a concern not only for the future supply of racehorses but for the entire horse industry.

ATG is committed to contributing to financing horse racing, but we cannot influence all the conditions on our own. The higher gambling tax has restricted ATG's capacity to contribute financing to the horse industry, and we have continued to say this to the country's decision-makers.

Sport betting and casino games

Intense competition characterises the sport betting market. While ATG has a strong position, we lost market shares in the first half of 2026 after a weak late winter, and market figures for the third quarter are not yet available. Customer trends, meanwhile, are giving positive signals. Reaching more customers is important, but this increased reach must naturally translate into increased activity. Sport betting is largely driven by results and excitement: customers want thrills and a chance to win, and are drawn to live events where the pace and clarity enhance the experience.

Growth is stronger in the casino operations, where net gambling revenue increased 14 per cent for the period. This was largely a result of the growth of our Danish subsidiary, 25syv, which reported an overall increase of 28 per cent in SEK.

Our task is to develop the offering around customer needs, with responsibility and long-term profitability as our starting point.

Looking ahead

ATG will continue to develop competitive and responsible gambling operations, enhance our offering and contribute to Swedish trotting and thoroughbred racing. This means developing horse betting and harnessing growth opportunities in other betting areas, while safeguarding the long-term mission that sets ATG apart from many other operators in the gambling market.

The launch in Finland is another tangible step in ATG's strategy to grow and strengthen our position in the Nordic gambling market. Finland opens its licensed gambling market on 1 July 2027 and ATG was one of the first operators to be granted a licence through its joint venture subsidiary Hippos ATG OY. This establishment gives us an opportunity to bring our expertise in horse betting and our experience of developing competitive gambling offerings to a new market.

We will face stiff competition across the Baltic Sea, and establishing ourselves there will place high demands on us. We are tackling the challenge with great determination.

Monitoring sustainability indicators

Loyalty and willingness to recommend, which are measured in a Net Promoter Score (NPS), declined over the quarter. The decline is linked to dissatisfaction with V85®, which customers see as harder, more expensive and less attractive to casual bettors than the earlier V75®. This was compounded by a feeling that ATG has not listened to their views. V75® will return as ATG's major Saturday event on 28 November, but the effect of this news is not yet reflected in the NPS outcome. Despite the deterioration, ATG is still the betting company that most Swedes would recommend. One important factor for a high level of loyalty and willingness to make recommendations is the broad betting offering provided by ATG combined with the convenience of navigating in the digital channels.

Responsible gambling is ATG's most important sustainability matter. ATG reports customers broken down according to different risk categories based on the GameScanner analysis tool, which identifies risky gambling behaviour. These risk categories reflect the likelihood of negative consequences related to gambling. A high risk category does not mean that a gambling problem has been identified, but does indicate the existence of an increased risk. Monitoring provides important decision data for ATG's initiatives to prevent harm arising from gambling and to promote sustainable customer relationships.

JANUARY–SEPTEMBER 2026

Revenue

The Group's net gambling revenue for the period was MSEK 3,763 (3,862), down 3 per cent. The Danish Group 25syv impacted the Group's net gambling revenue with MSEK 310 (242) during the period, an increase of 28 per cent. Changes in exchange rates had a negative impact.

The Group's net gambling revenue from horse betting decreased MSEK 123, down 4 per cent, sport betting decreased MSEK 43, down 8 per cent, and casino games increased MSEK 67, up 14 per cent. The period had the same number of Saturdays with V85® and/or V75®, it also had seven more jackpots than the comparative period.

Gross turnover for Swedish horse betting was MSEK 8,428 (8,963), a decrease of 6 per cent. International gross turnover amounted to MSEK 2,702 (2,484), up 9 per cent. Total gross turnover for horse betting (Swedish and international) was MSEK 11,130 (11,447), down 3 per cent.

Other revenue for the Group amounted to MSEK 419 (384), up 9 per cent.

The Group's total revenue was MSEK 4,307 (4,384), down 2 per cent.

Expenses

Gambling tax totalled MSEK 916 (951) for the period. Operating expenses amounted to MSEK 2,312 (2,328), down 2 per cent. Severance payments to the CEO and as a result of the reorganisation in the spring adversely impacted expenses, whereas the comparative year was negatively impacted by non-recurring costs pertaining to a trademark dispute. Costs related to the autumn reorganisation will arise in the fourth quarter.

One expense item relates to services covered by ATG's agreements with the horse racing industry for horse racing information, rights and sponsorship. This expense totalled MSEK 437 (446) for the period.

Operating profit, profit from financial items and profit for the period

Operating profit for the period amounted to MSEK 1,079 (1,105), down 2 per cent. Operating profit has decreased as a result of reduced revenue. The operating margin for the period was 25 per cent (25). Profit from financial items amounted to MSEK 13 (12) for the period. Profit for the period totalled MSEK 1,055 (1,078).

Parent Company's profit before transactions with owners

The Parent Company's profit before transactions with owners (see definition on page 21) totalled MSEK 1,503 (1,550) for the period, down 3 per cent. The KPI indicates the company's profitability before corporation tax and costs for the rights and information purchased from the owners. The KPI was prepared to enable comparison of the company's results from re-regulation in 2019 with previous years and with competitors in the gambling market.

Investments

Cash investments in PPE and intangible assets for the period amounted to MSEK 161 (178). Investments during the period were mainly in the development of technical platforms and software for betting systems for existing and future betting products, and the further development of the digital channels. The allocation of the company's investments in the three betting areas reflects future revenue expectations.

Cash flow

Cash flow from operating activities amounted to MSEK 1,146 (1,211). Cash flow from investing activities amounted to an outflow of MSEK 163 (outflow: 178). Cash flow from financing activities amounted to an outflow of MSEK 1,086 (outflow: 1,126). Cash flow for the period amounted to an outflow of MSEK 103 (outflow: 93). Closing cash and cash equivalents amounted to MSEK 272 (411).

Financial position

The Group's long-term liabilities to credit institutions totalled MSEK 998 (649). The Group's current liabilities to credit institutions totalled MSEK 0 (0). ATG's unutilised credit facilities amounted to MSEK 15 (65) at the end of the period. The Group's total assets amounted to MSEK 3,729 (3,682).

OTHER DISCLOSURES

Employees
The average number of employees in the Group during the period was 596 (606), of which 41 (43) in Denmark and 4 (0) in Finland.

Seasonal effects
Sales have historically shown certain seasonal variation. There are several reasons for these variations, including the trotting and thoroughbred horse racing calendar, the number of V85® and V75® Saturdays during the period, the dates of public holidays and the company's market offerings.

Number of scheduled V75s® & V85®

	Q1	Q2	Q3	Q4	Total
2026	13	13	13	14	53
2025	13	13	13	14	53

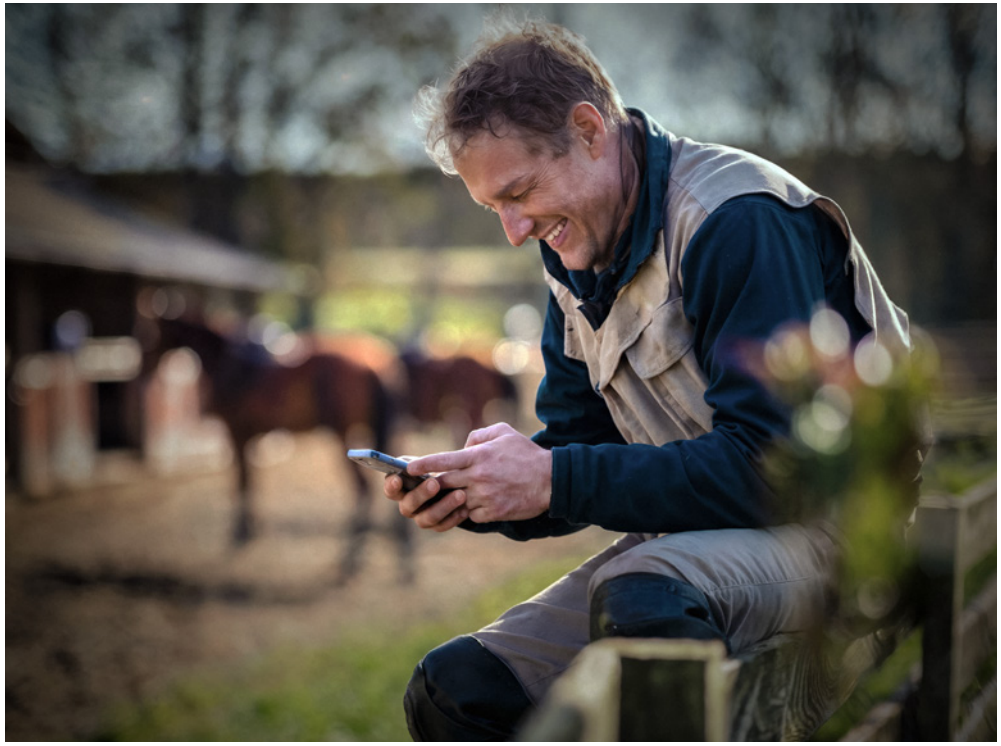

Customers
The number of active customers at the end of the period was around 1.4 million (1.3).

Related-party transactions
ATG's largest owner, the Swedish Trotting Association, is the Group's main supplier. The Group had no other significant transactions with related parties during the year except for payments for horse racing information, rights and sponsorship, and loans to the owners.

Group
The Group comprises: the Parent Company Aktiebolaget Trav och Galopp (556180-4161); the wholly owned subsidiary Kanal 75 AB (556578-3965); the wholly owned 25syv Group A/S (30556372), with the wholly owned subsidiaries 25syv A/S (30897765) and Ecosys Ltd (C53354); and the joint venture Hippos ATG OY (35408284), where ATG owns 50 per cent.

Significant risks and uncertainties
ATG's operations entail risks and uncertainties that, to varying degrees, can impact the company negatively. Risk management is an integral part of the process for planning, implementing and monitoring operations within ATG. The regulatory measures and political decisions that affect the market are a significant uncertainty. Otherwise, the material risks and uncertainties are assessed as corresponding to those described in the last annual report. For a comprehensive description of ATG's risks and uncertainties and the management of these, refer to pages 36–41 of the 2025 Annual Report.

Outlook
In the long term, the strongest correlating factor with the gambling market's turnover development is a change in household disposable income. Recession and high household costs, a prolonged impact of previous high inflation have a negative impact on entertainment wallets, which impacts spending on gambling. Effective 1 July 2024, the gambling tax was raised from 18 per cent to 22 per cent. A hike of four percentage points represents a substantial increase in the gambling tax, which is impacting ATG's earnings and return to its owners. Going forward, ATG will continue to work toward clearly formulated goals and customer promises. This entails continued work on the constant development of, and investments in, betting products for cost-effective growth. The aim of this is to continue delivering positive results and thereby live up to the assignment and mission of being the engine of the horse racing industry and the gaming industry's compass.

The Board of Directors and the acting CEO hereby give their assurance that this interim report provides a fair overview of the Parent Company's and the Group's operations, financial position and earnings, and describes the significant risks and uncertainties facing the Parent Company and the companies included in the Group.

Note 1 Accounting policies

General information

Aktiebolaget Trav och Galopp (ATG), company registration number 556180-4161, is the Parent Company of the ATG Group. Aktiebolaget Trav och Galopp AB has its registered office in Stockholm, under the address SE-161 89 Stockholm.

The operations of the Parent Company ATG intend to safeguard the long-term development of trotting and thoroughbred racing through offering responsible gambling. The mission has been formulated by our owner, trotting and thoroughbred racetracks, and the State, which regulates the company's operations.

All amounts are stated in million Swedish kronor (MSEK), unless otherwise stated. Amounts within parentheses pertain to the corresponding period in the preceding year.

This interim report has been prepared in accordance with IAS 34 Interim Financial Reporting. ATG applies the International Financial Reporting Standards (IFRS) as adopted by the EU, RFR 1 "Supplementary Accounting Rules for Groups" and the Annual Accounts Act. The Parent Company's financial statements are prepared in accordance with RFR 2, "Accounting for Legal Entities" and the Annual Accounts Act.

This interim report has been prepared pursuant to the accounting policies and calculation principles set out in the 2025 Annual Report on pages 62–67.

Revenue recognition

ATG Group's net gambling revenue consists of horse betting, sport betting and casino games. Revenue from the Group's gambling operations is recognised net less the winnings returned to the customers and bonus expenses. Revenue is recognised when the customer obtains control of the sold product or service and can use and benefit from the product or service. Revenue is recognised excluding VAT. The Group's gambling revenue is recognised at a point in time when the obligation/control is transferred to the customer at the same time as the service is delivered.

Horse betting revenue

The Group's horse betting revenue is derived from betting on horse racing and is recognised when the results of trotting and thoroughbred races have been confirmed following the completion of races, which is also the point at which the obligation to the customer is satisfied. The revenue is measured at the fair value of the sums received. The Group's horse betting revenue comprises a net amount "Net gambling revenue," based on the customers' stakes less winnings returned to the customers.

Sport betting and casino games revenue

The Group's sport betting and casino revenue is recognised, after adjustment of the jackpot liability for own casino jackpots, as net gambling revenue in the period in which the betting event occurred. Net gambling revenue comprises the customers' stakes (gross gambling revenue) less the winnings returned to the customers. The revenue is measured at the fair value of the sums received. Gambling revenue from online casinos is recognised when payment is received as this coincides with the time the bet takes place and the obligation to the customer is thereby fulfilled.

Gambling revenue for sport betting is recognised when the position in relation to the customer is closed, whereupon the commitment to the customer is satisfied. Sport betting transactions that are not settled by the end of the period have the nature of derivatives since the Group maintains an open position, with fixed odds against the customer. These are defined as financial liabilities and recognised at fair value through profit or loss under IFRS 9 Financial instruments. On the balance-sheet date, the value of these liabilities was insignificant. The revenue is recognised in the period in which the betting event occurs.

Gambling revenue from sport pool betting is recognised when the results of matches have been confirmed following the completion of the competition, which is also the point at which the obligation to the customer is satisfied. The revenue is measured at the fair value of the sums received.

Other revenue

Other revenue pertains to revenue from activities outside the company's core operations. This revenue mainly consists of production revenue from TV and online services in trotting and thoroughbred racing, commission on international betting sales, partner income and store income. Other revenue also pertains to exchange gains on the translation of accounts payable and accounts receivable in foreign currency.

Agent revenue

Agent revenue pertains to revenue from betting slips and revenue from the betting shares of agents. This revenue is a component of the customers' stakes for participating in betting and is included in the calculation of gambling tax. Costs for agent commissions are recognised under Other expenses in the financial statements.

Group contributions

Group contributions paid, and tax on Group contributions, to owners are reported in the Group in shareholders' equity. The Parent Company recognises Group contributions received and paid as an appropriation in accordance with the alternative accounting rule.

New and amended accounting policies

IFRS 18 will replace IAS 1 Presentation of Financial Statements. The standard applies to financial years beginning on or after 1 January 2027, and is to be applied retrospectively. The new standard changes the structure and presentation of the statement of profit or loss, including new mandatory subtotals and the classification of income and expenses into operating, investing and financing categories.

IFRS 18 will not affect ATG's underlying financial results or cash flows, but is expected to change the presentation of the Group's external financial reporting. Among other changes, financial income will be recognised in the financing category, while financial expenses will be broken down and recognised both in the financing and in the investing categories.

DEFINITIONS AND GLOSSARY

FINANCIAL KPIS

ATG prepares its financial statements according to IFRS. Because IFRS defines only a few performance measures, ATG has decided to use additional performance measures.

EBITDA Operating profit before depreciation and impairment losses.

Shareholders' equity per share Shareholders' equity divided by the average number of shares, which amounts to 400,000 for the periods covered by the report.

Cash flow from operating activities per share, SEK Cash flow from operating activities divided by the average number of shares, which amounts to 400,000 for the periods covered by the report.

Net gambling revenue Customers' stakes less pay-out to customers.

Sales growth Sales increase or decrease expressed as a percentage.

Earnings per share Net profit divided by the average number of shares, which amounts to 400,000 for the periods covered by the report.

Operating margin Operating profit as a percentage of total revenue.

Debt/equity ratio Total liabilities including provisions divided by shareholders' equity.

Equity/assets ratio Shareholders' equity divided by total assets expressed as a percentage.

Swedish gambling turnover Total funds bet by Swedish customers on trotting and thoroughbred races during the period.

STRATEGIC KPIS

Parent Company's profit before transactions with owners Operating profit plus transactions with owners regarding horse racing information, rights and sponsorship. See the reconciliation in the table on page 7. The performance measure is reported to create comparability between the years and also between the company and its competitors.

Net Promoter Score (NPS) Measures customer satisfaction, that is, the customer's willingness to recommend ATG.

GLOSSARY

Number of active customers The number of customers who placed at least one winnings-monitored/registered bet over the past 12 months.

Number of million-krona wins Number of wins, Swedish customers' winnings, combinations resulting in wins of at least SEK 1 million.

ATG stores The stores that supply ATG's products.

Average number of employees The average number of employees, restated as FTEs, in the report period.

Agent Resellers of ATG's betting products in stores.

Pools For each betting product and race, the turnover for all betting products purchased are totalled in a pool, which is then distributed as winnings to the winners after deductions have been made.

Swedish Gambling Authority The authority that ensures that lotteries, casino games and other gambling operations in Sweden are conducted legally, securely and reliably.

SPER The Swedish Gambling Association, represents the gambling market in Sweden and works to promote the interests of its members. The association's mission is to promote a healthy, modern and sustainable gambling market.

Totalisator (tote betting or tote board) is a system for betting on horse races and is used in nearly all countries that arrange trotting and thoroughbred races. Players bet on the horse they believe will win and the players who bet on the winning horse share the total amount on a pro rata basis determined by the size of their bet. From the operator's perspective, it makes no difference which horse wins since the operator, as the administrator, is entitled to deduct a fixed percentage from the total amount before the remainder is paid out as winnings.

Pay-out to customers The nominal total of betting turnover paid out to customers.

ABOUT ATG

With the mission to be the engine of the horse racing industry and the gaming industry's compass

- ATG's task is to safeguard the long-term development of trotting and thoroughbred racing by offering responsible gambling.
- ATG is owned by the Swedish Trotting Association and the Swedish Jockey Club. Since it was founded in 1974, ATG has financed trotting and thoroughbred racing with approximately BSEK 60 – financing that makes ATG the engine of the horse racing industry.
- ATG's mission is to serve as the gaming industry's compass. To ensure customers enjoy their betting and play for pleasure, ATG strives to be a role model for the industry and drive the industry's important topics forward.
- ATG has three subsidiaries: media company Kanal 75, the Danish gaming company 25syv and the Finnish company Hippos ATG OY (which is expected to start gambling operations in mid-2027 when the licensed market in Finland enters effect). ATG also has an international business. A key aspect of ATG's international collaboration is the safeguarding of responsible gambling and animal welfare.
- ATG offers horse betting, sport betting and casino games. Sales take place both digitally and at about 1,430 store agents as well as at trotting and thoroughbred racetracks in Sweden and Denmark.
